

## Exclusive benefits for our clients

We have selected Lockton Private Clients to provide a bespoke insurance advisory and management service to our clients

Insurance is a key part of wealth protection and preservation and one often overlooked or given little thought. Getting it wrong can have costly consequences if your arrangements are not adequate to meet your liabilities or protect your assets.

Lockton Private Clients will provide advice on personal insurance requirements, such as home, motor, jewellery, art and boat insurances. The service provided by them will include the following (subject to individual circumstances and a minimum premium spend of £1,500):

- advice on personal insurance exposures to identify under-insurance and advise on mitigating strategies and appropriate cover
- 5% premium discount (only available as a client of Fiscal Engineers)
- cover provided by a reputable panel including Hiscox, Chubb, AIG, AXA Art, ZPC, Oak and Sterling
- superior cover not always available via direct insurers and comparison websites
- portfolio approach covering multiple assets (Home, Motor, Art, Jewellery, etc.), benefiting from multi-line discounts and a common renewal date
- one point of contact with high-quality professional advice and claims support
- preferential arrangements with additional service providers

### How it works

You can either call them on 020 7933 2828, or email [privateclientenquiries@uk.lockton.com](mailto:privateclientenquiries@uk.lockton.com). They will then gather the information from you they require and will provide you with advice and options; or if more complex will arrange to meet with you to fully understand your exposures.
