

A leading platform for your financial future

For Investors

HELLO FROM TRANSACT

Your financial adviser, who we refer to simply as 'adviser' in this brochure, operates independently of Transact and is recommending the use of our investment platform service on your behalf.

This brochure is designed to help you understand who we are and what we do, together with what you will gain by using our service. It also demonstrates why we are trusted by thousands of UK advisers as the leading platform on which to manage financial plans.

Our online platform, combined with our expert personal customer service, enables you and your adviser to manage all of your assets and tax wrappers (such as ISAs, pensions and life insurance bonds) within your investment portfolio from one, centralised place.

Launched in 2000, Transact was the first revolutionary investment technology solution known as a 'wrap service' to be introduced to advisers in the UK. To achieve this, we used our own in-depth knowledge of the UK investment market, plus a wealth of insight derived from Australia, where wraps were originally developed. The result is Transact – a highly refined, award-winning wrap service.

Since 2000, we have continued to go from strength to strength and now look after over £54bn of funds in 229,000 client portfolios (as at June 2023).

Take control with Transact – and you will see why we are the UK's leading platform for your financial future.

3

What are tax wrappers and how can they be used?

Tax wrappers are tax-efficient vehicles that you can, subject to certain rules, 'wrap' around your assets to help minimise the tax that you pay on your returns. Your adviser can use our service to allocate your investment assets to the most appropriate and tax-efficient wrappers on your behalf.

Please note that levels of taxation and tax relief are subject to change. Your tax liability will depend on your individual circumstances and may change at any time.

The group companies which provide the Transact wrappers are fully regulated by the appropriate bodies; including the UK Financial Conduct Authority (FCA), the Isle of Man Financial Services Authority and the UK Prudential Regulation Authority. We treat all cash we hold on your behalf in accordance with the client money rules set by the FCA and we provide the highest levels of client data security.

CHARGES

OUR CHARGES

The charges you pay depend on the amount you have invested as well as the investments and wrappers you choose, and are shown below. We charge an annual commission for using Transact, which operates on a sliding scale where the rate reduces as your portfolio grows. We do not charge on the initial deposit of cash, or the movement of assets onto Transact.

We allow you to consolidate the value of your portfolio with those of your immediate family members, to create a higher portfolio value which can enable you to benefit from lower overall charges.

We periodically review our charges and have implemented price reductions every year since 2008, benefiting new and existing clients.

1. Annual charges

3. Buy Commission

When you buy an investment we charge a Buy Commission of 0.05% of the value of the investment. At the end of the month you may receive a refund of all Buy Commission based upon your average portfolio value for the month or part month, as below.

MONTHLY AVERAGE PORTFOLIO VALUES	REFUND	EFFECTIVE RATE
< £100k	0%	0.05%
£100k +	100%	0.00%

4. Additional charges

Transact facilitates the payment of fees from your portfolio for the advice you receive from your adviser. We also levy dealing charges when investments listed on or admitted to a stock exchange are traded on your behalf.

You can access full details of all our charges by visiting <https://www.transact-online.co.uk> and downloading our Commissions and Charges Schedule. Your adviser can also provide you with full information concerning our charges, and will be able to assist you in determining whether Transact is right for you.

Cash interest

We'll pay you the full rate of interest on any cash you hold in your portfolio – unlike some of our competitors, who may retain a portion of the interest.

The risk factors

We offer a wide range of investments on our platform. As with any cash put into investments there are risks – i.e. the value of these investments can fall as well as rise and you may get back less than your original investment. Please note that past performance is not a guide to the returns you will receive in the future. Charges made by us, your adviser, and the managers of the underlying investments will have an impact upon the value of your investments. We make our charges clear to you from the outset, but they are subject to change.

WHAT HAPPENS IF I NO LONGER HAVE AN ADVISER?

Transact is designed to work in conjunction with the advice provided by professional advisers. If for any reason you no longer have an adviser in place, we recommend that you appoint another as soon as possible.

Non-advised investors are charged additional fees, to cover the additional costs required to service your portfolio, after a notice period of 90 days. These additional charges can be found in the Terms and Conditions of our Wrap Service.
